* Issues payable in foreign currency are included at the par of exchange up to Sept. 15, 1939, but thereafter conversion is made on the basis of the official rates of the Foreign Exchange Control Board. (1) Subject to revision. War Savings Certificates are included. (2) Treasury Bills are excluded. For particulars of Dominion Treasury Bills see Heading IV. (3) C.N.R. bonds guaranteed by provinces are treated under the heading "Other C.N.R.". (4) Includes retirements through sinking fund purchases. In many cases available data did not permit more than arbitrary approximations for separate portions of the fiscal year. (5) The \$40 mm. Dominion issue due in New York on 1st Jan., 1939, which was refunded in New York in November, 1938, is for the purposes of this table taken as maturing in the last quarter of 1938. (6) Does not include \$250 mm. of 1 year 1% Notes which, under the Exchange Fund Order, 1940, the Dominion government issued and sold to the Bank of Canada on May 1 in order to supply the Foreign Exchange Control Board with funds with which to purchase gold and foreign exchange under the terms of the Foreign Exchange Acquisition Order. These notes were renewed in 1941. (7) Payable in Canada only. (8) Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. For the same reason these bodies are not included in the Summary of Changes in Currency of Payment. However, the net reduction of total municipal bonded debt less sinking funds has been (in millions of dollars) approximately 25, 30, 37, 27, and 43, respectively, in the years 1937 to 1941. (9) Includes \$48 mm. of C.P.R. bonds issued to refund Dominion guaranteed bank loans. \$12 mm. was delivered in the first quarter and \$36 mm. in the second quarter of 1936. (10) The issue of \$75 mm. of Dominion Treasury Bills in the second quarter of 1940 was made in the same manner and under the same authority as the issue of Notes referred to in note (6) above. (11) The \$30 mm. Bell Telephone issue which was called for redemption on 1st March, 1940, and refunded in August, 1939, is for the purposes of this table taken as maturing in the third quarter of 1939. (12) Including issues payable optionally in Canada or London. (13) Only, or optionally.

(1) Provincial Treasury Bills are excluded. (2) Figures for the gross amount of bonds outstanding are compiled from latest official sources adjusted to 31 December, 1941, by subsequent known issues and redemptions; when full details regarding these become available minor revisions may be necessary. (3) Including issues payable in Canada or London, and one issue payable in London or Paris. (4) Figures for guaranteed issues are approximate in some cases for which full particulars are not available. (5) The \$33.3 mm. of School Land Debenture Stock issued by the Dominion and held by Provinces is excluded. Treasury Bills, War Savings Certificates, Stamps and Non-Interest Bearing Certificates are included. (6) C.N.R. issues guaranteed by the provinces, being included under the C.N.R. heading, are excluded from provincial headings.

(1) 1941/2 war expenditure is included at the middle figure of the \$1300 mm. to \$1450 mm. range given in the Budget Speech. (3) Excluding the \$325 mm. advance to the Foreign Exchange Control Board which was made in connection with the Foreign Exchange Acquisition Order, and which was financed by the sale of an issue of short term notes and Treasury Bills to the Bank of Canada. (4) Excluding the Minister of Finance Special Account. (5) Excluding new issues sold to banks for refunding purposes; the corresponding redemptions are, of course, excluded from "Maturing Security Issues". (6) Includes net maturities payable in foreign currency. See also note (5).

CENTRAL ELECTRIC STATIONS : INSTALLED CAPACITY[†] AND OUTPUT : 1927-42

MILLIONS OF HORSE POWER

BILLIONS OF KILOWATT HOURS

[†] The chart is scaled on the assumption that the potential output of one horsepower of installed capacity is 4,000 kilowatt hours. This was the approximate effective rate before the war but has since been appreciably raised by measures to increase utilization of available capacity, e.g. by connecting formerly independent power distribution systems, by daylight-saving, staggering hours of work, and other measures designed to spread the incidence of peak loads. * Running 12-month totals, 1939-41. ★ Estimate.

* The destination of wheat exports prior to July, 1936, has been adjusted to conform to Board of Grain Commissioners data available since that date, showing final destination of wheat exports rather than the nominal or initial consignment basis recorded by Customs. The revisions involve an extensive shift of exports from the U.K. to Continental Europe arising out of diversion of shipments afloat, and re-exports from the U.K. The adjustments which range from \$22 mm. to \$156 mm. are necessarily rough. They are based on Board of Grain Commissioners material as well as Canadian, U.S. and U.K. Customs data. (1), (2), (3), (4) see notes on facing page. † Preliminary.

MERCHANDISE TRADE : 1937-41

BALANCE OF TRADE*

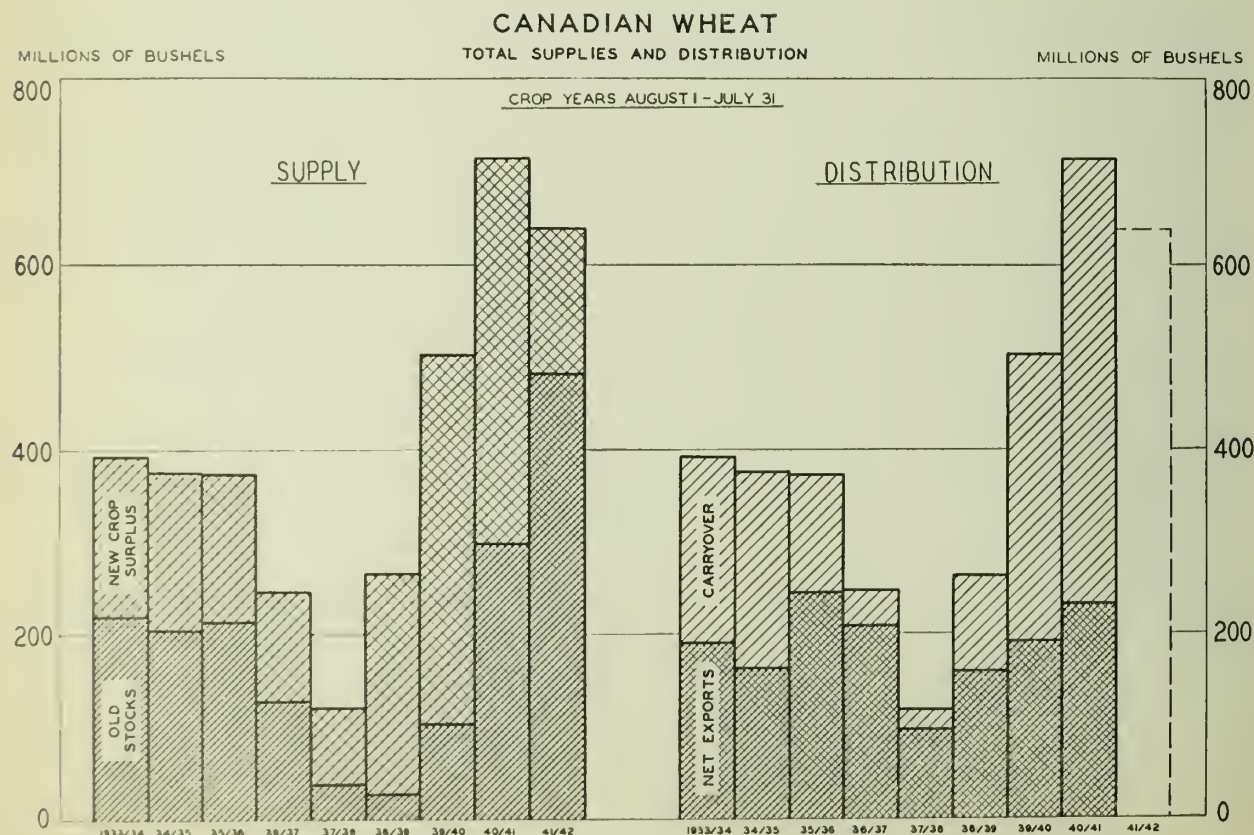

* Including re-exports, as given on facing page.

(1) Adjusted to 1926=100 from base 1913=100 in 1926-29 and from base 1930=100 in 1930 and thereafter. (2) Bureau of Labor Statistics Index of Prices of Finished Products.

WHOLESALE PRICE INDEX
PERCENTAGE INCREASE BETWEEN FEB. 1941 AND FEB. 1942

NOTE: The vertical measurement of each bar represents the weighting of the respective commodity group in the total wholesale price index, i.e. the area of each bar in the chart represents that part of the total increase in the wholesale price index which has been contributed by the commodity group in question.

TABLES AND CHARTS MAY BE REPRODUCED OR REFERRED TO PROVIDED THAT THE BANK OF CANADA STATISTICAL SUMMARY, WITH ITS DATE, IS SPECIFICALLY QUOTED AS THE SOURCE

Tables and Charts refer to Canada unless otherwise stated.

Most of the figures in the Summary are, for want of space, given to a certain degree of approximation only. Where this is the case a total does not necessarily equal the sum of its constituent items.

SUBSCRIPTION: 25c per copy, post free. For particulars apply to the Research Department, Bank of Canada, Ottawa.

TOTAL CURRENT REVENUE	132.5	173.7	244.6	250.7	260.9	301.1	322.6

(1) Excluding interest receipts; Dominion grants in aid for unemployment relief, old age pensions, technical education, employment offices etc.; refunds from other provinces, municipalities etc.; and institutional revenues from sales of produce and services, all of which have instead been deducted from the corresponding items of expenditure. (2) Adjusted to conform with corporation taxation as set out in the Dominion-Provincial Tax agreements.

(3) Totals will differ from the total revenue figures in the Provincial Public Accounts since for purpose of comparison certain adjustments have been made including the deduction of certain items of revenue from the corresponding expenditure (see note 1). (4) Quebec figures are estimates for a twelve month period based on the nine month fiscal period.

(1) Includes direct relief expenditures whether or not these were capitalized by the Provinces. For purpose of comparison however certain items of revenue have been deducted from the corresponding expenditure (see footnote (1) under revenue). (2) Gross payments less interest received from public utilities, loans, advances, bank balances, etc. (3) Including pensions for the blind. (4) Including all relief expenditures whether or not capitalized, except on relief works and seed grain loans. (5) Composed largely of expenditures of general administrative departments such as Treasury, Audit, etc. Administrative cost of each function has been charged to that function. (6) Includes special expenditures such as bonuses for hogs, cheese, rural power lines, etc. and other expenditure not classified. (7) Totals will differ from the total expenditure figures in the Provincial Public Accounts since for the purpose of comparison certain adjustments have been made including the deduction of certain revenue items (see note 1). (8) Quebec figures are estimates for a twelve month period based on the nine month fiscal period.

* Wheat exports have been adjusted to show final destination rather than the nominal or initial consignment basis recorded by Customs. The revisions involve an extensive shift of exports from the U.K. to Continental Europe arising out of diversion of shipments afloat and re-exports from the U.K., and are necessarily rough. Owing to lack of available data this adjustment has not been made since Jan. 1942. (1), (2), (3), (4) see notes on facing page. † Preliminary.

MERCHANDISE TRADE : 1939-42
BALANCE OF TRADE*

* Including re-exports, as given on facing page.

TABLES AND CHARTS MAY BE REPRODUCED OR REFERRED TO PROVIDED THAT THE BANK OF CANADA STATISTICAL SUMMARY, WITH ITS DATE, IS SPECIFICALLY QUOTED AS THE SOURCE

Tables and Charts refer to Canada unless otherwise stated.

Most of the figures in the Summary are, for want of space, given to a certain degree of approximation only. Where this is the case a total does not necessarily equal the sum of its constituent items.

SUBSCRIPTION: 25c per copy, post free. For particulars apply to the Research Department, Bank of Canada, Ottawa.

TOTAL CASH REQUIREMENTS	574.0	803.8	1,679.8	3,027.3	3,900.

* See following note.

(a) The 1942/3 estimates are highly tentative. The figure for "Direct War Expenditure" is the total of departmental estimates. The "Gift to U.K." is as provided in the War Appropriation (U.K. Financing) Act, 1942. "Other Expenditure" and "Total Cash Requirements" are as given in the Budget Speech. Asterisks indicate where no complete estimate is available.

(b) Apart from advances to the F.E.C.B. by the Dominion Govt. (\$325 mm.

in 1940/1 and \$400 mm. in 1941/2) which do not show in this consolidated table, the main sources of funds for the accumulation of sterling balances have been temporary borrowings from the Bank of Canada (sale of sterling by the F.E.C.B. to the Bank under agreement to repurchase), and the Can. dollar which become available to the F.E.C.B. as the result of net sales of gold to U.S. dollars. The negative figure for "Other Self-Financing" in 1940/1 arise out of the large transfer of gold and exchange to the F.E.C.B. in connection with the Foreign Exchange Acquisition Order of May, 1940.

(c) Actual payments to the Wheat Board out of the "Reserve against Deficits" were:—\$2.0 in 1939/40 and 4.6 in 1941/2. During the fiscal years under review the bank loans of the Can. Wheat Board increased or decreased as follows:—60.7, 18.2, 58.1, 15.6.

(d) Excludes equipment trust certificates, whose retirement is provided for out of operating expenses.

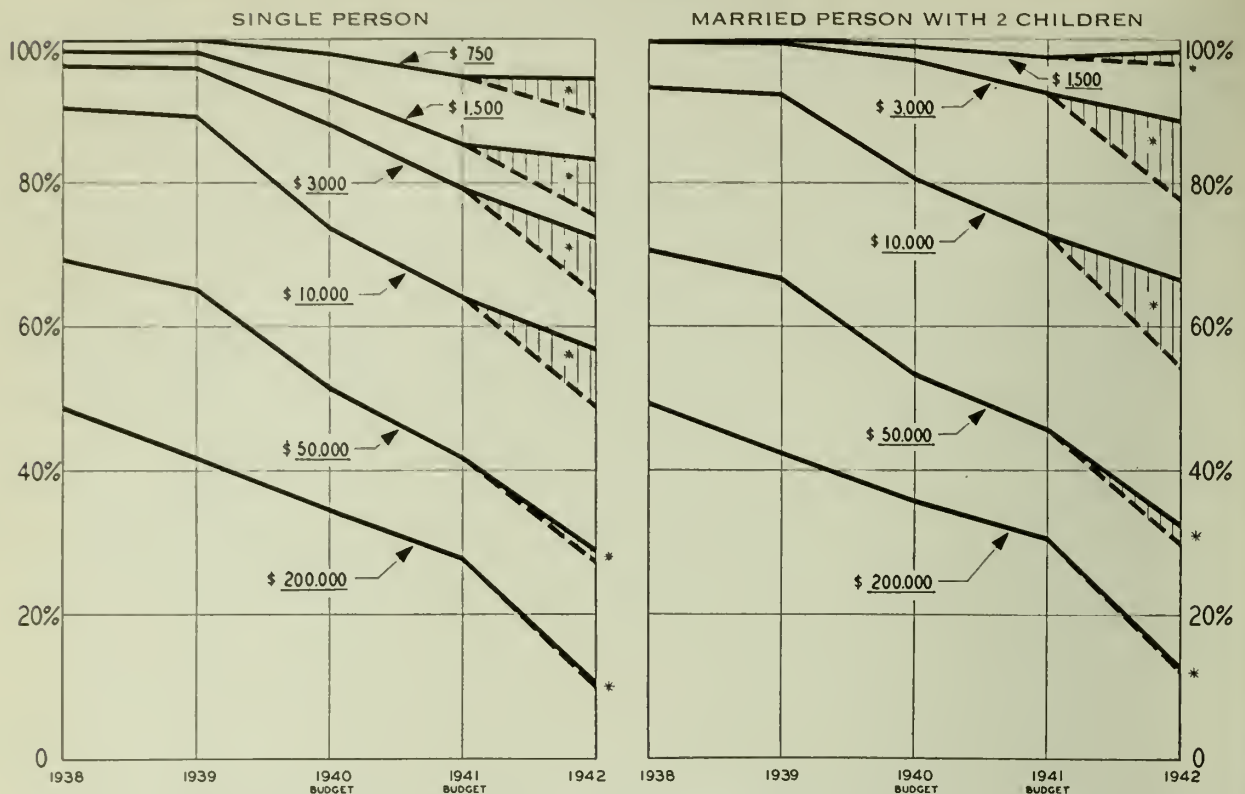

(e) Includes Non-Interest Bearing Certificates.

(f) Includes the cash holdings but not the investments of the Unemployment Insurance Fund.

(g) Gross bonded debt outstanding less sinking funds and Bond Holding Account. See also footnote (d).

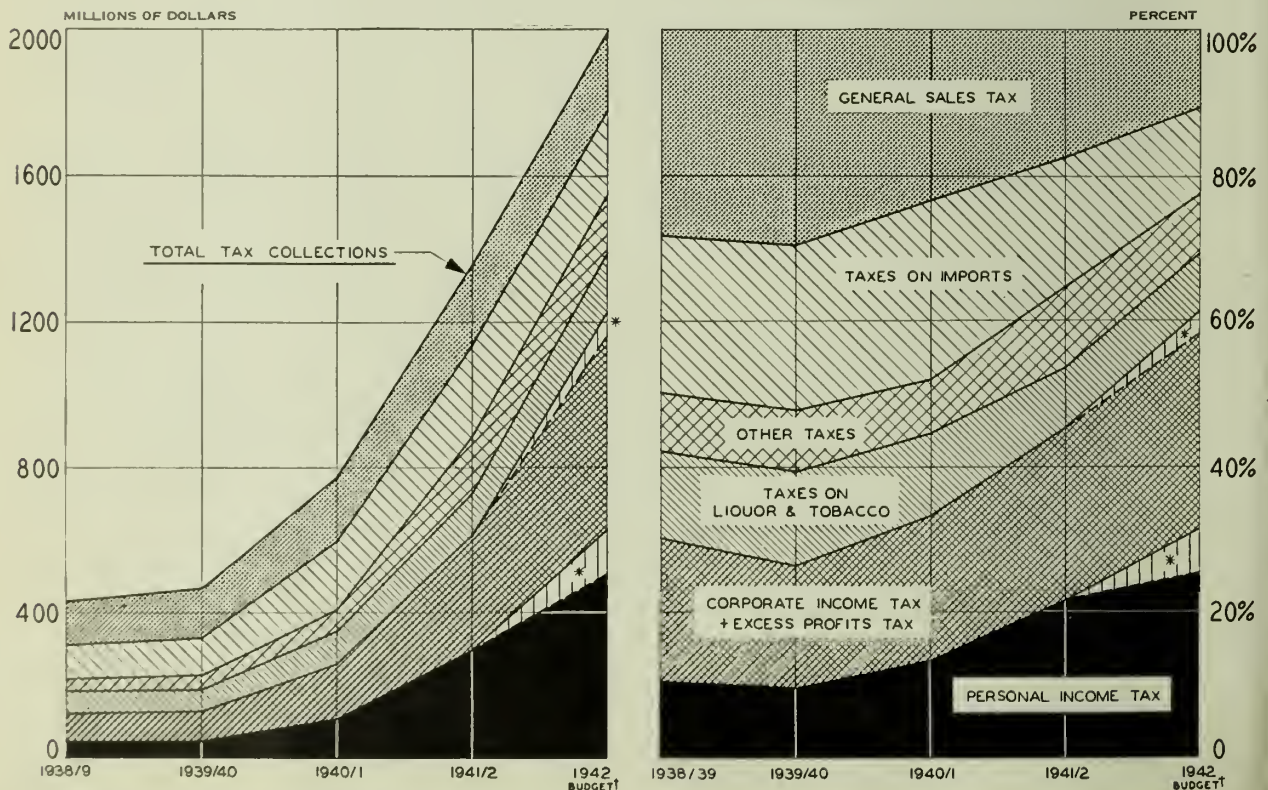

V—PUBLIC FINANCE : DOMINION GOVERNMENT

SELECTED INCOMES : PERCENT LEFT AFTER DEDUCTION OF INCOME TAX**

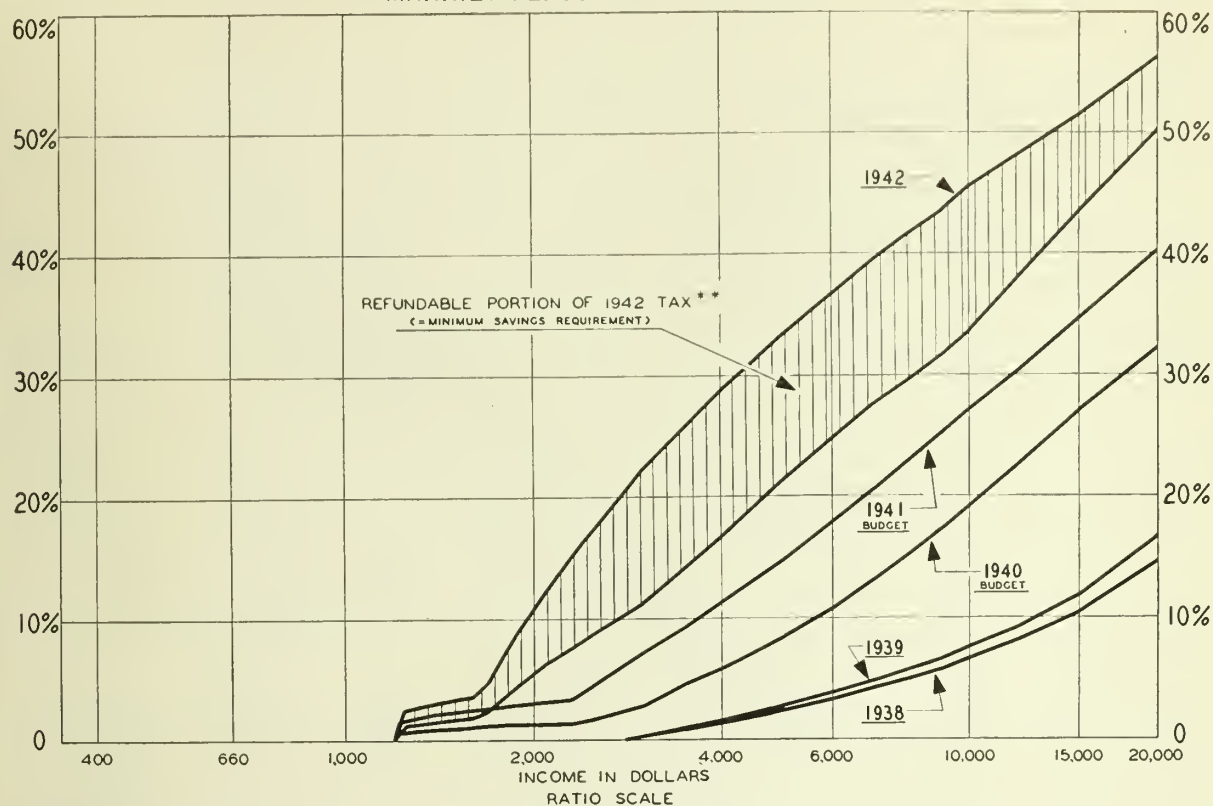

** Includes provincial income tax (Ontario) until suspended by agreement with federal govt. Assumes all income in excess of \$14,000 to be investment income. *Refundable portion of 1942 tax. See footnote (**) on facing page.

DISTRIBUTION OF TOTAL TAX COLLECTIONS

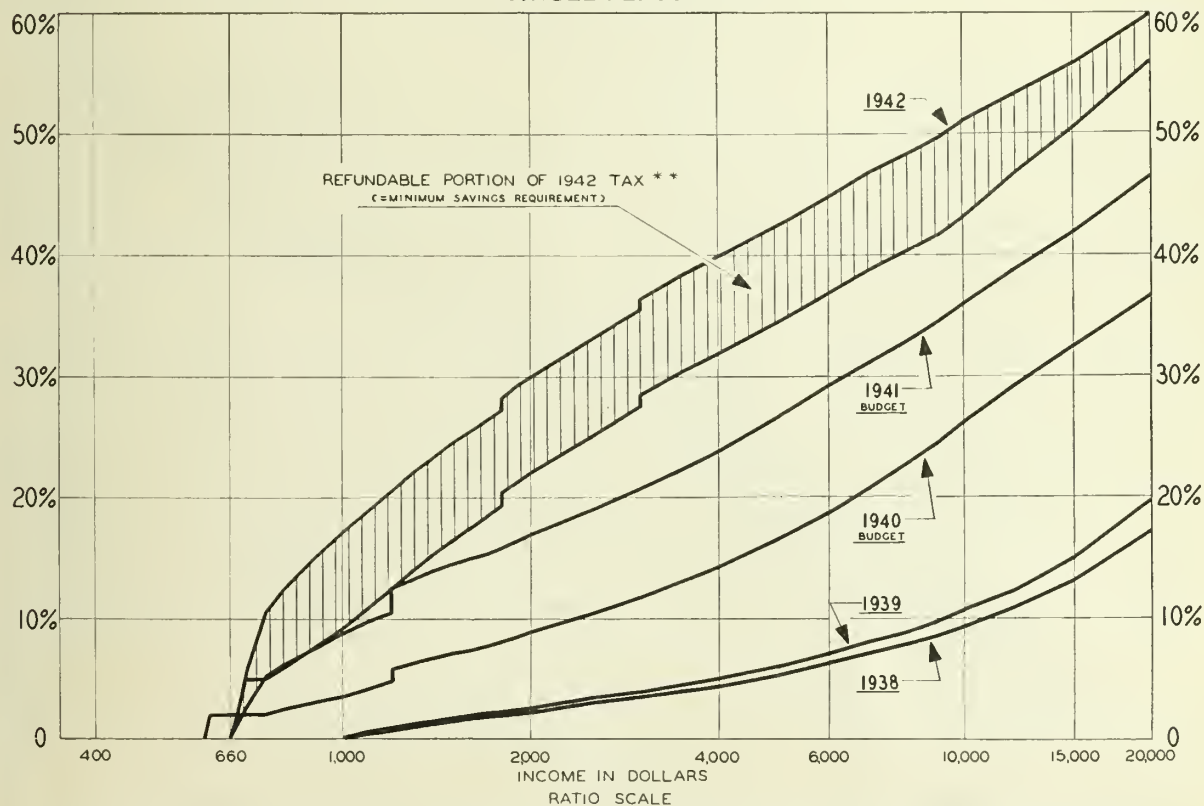

† Estimate for full year at 1942 budget rates.

V—PUBLIC FINANCE : DOMINION GOVERNMENT

INCOME TAX* AS PERCENTAGE OF INCOME
MARRIED PERSON WITH 2 CHILDREN

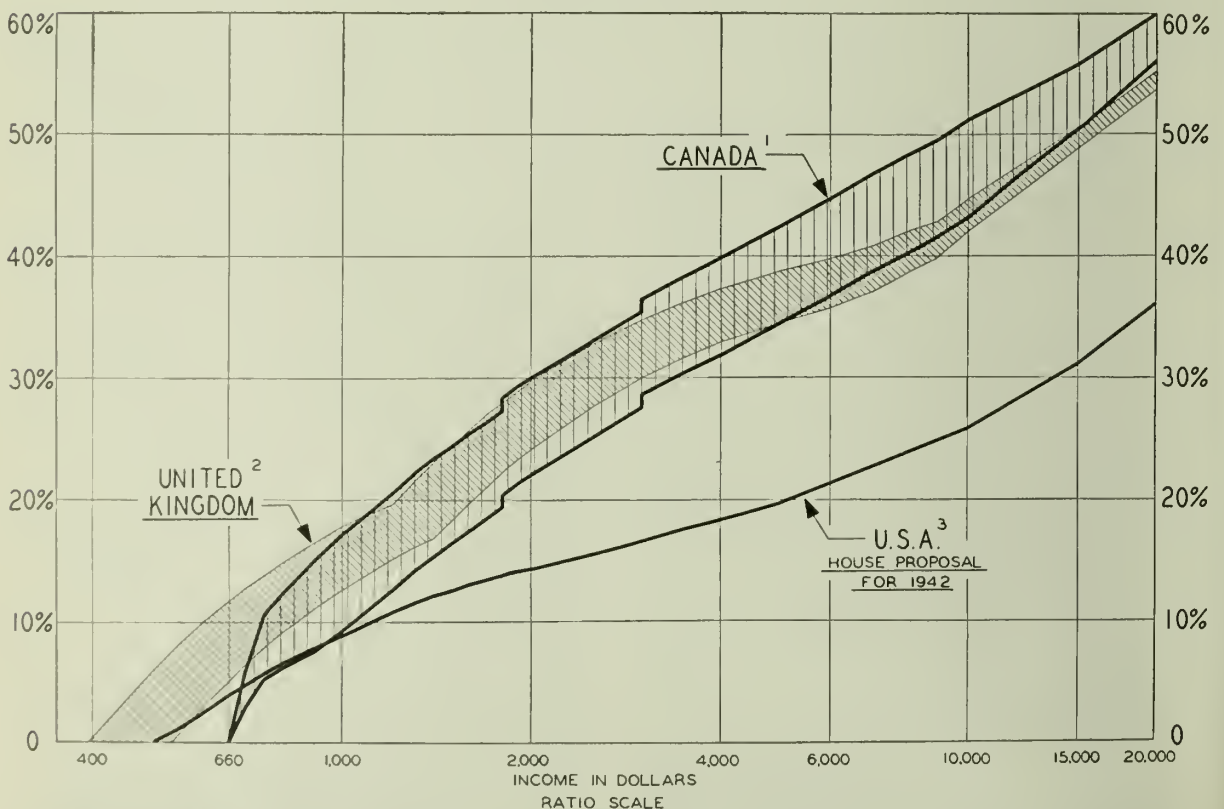

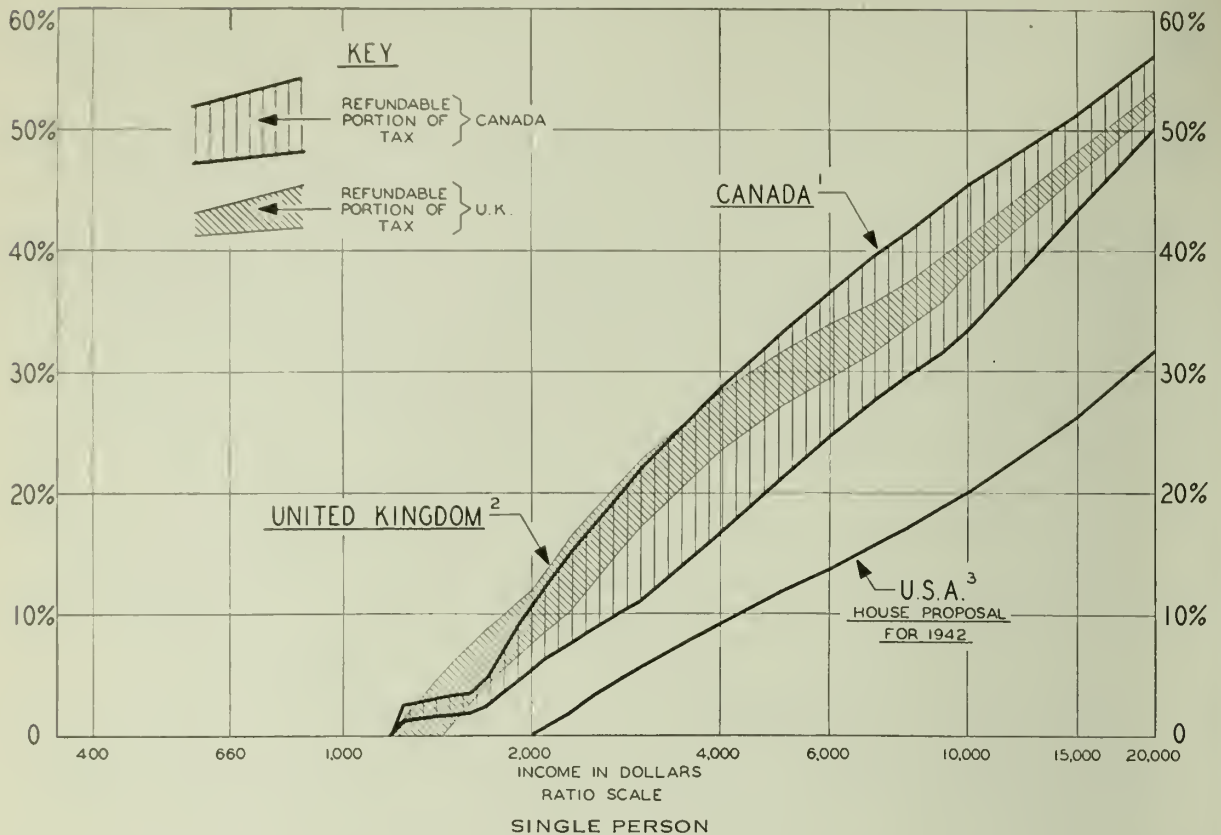

SINGLE PERSON

* Includes provincial income tax (Ontario) until suspended by agreement with federal govt. Assumes all income in excess of \$14,000 to be investment income.

** The taxpayer is entitled to deduct from the refundable portion of his tax any payments he is making in respect of certain specified types of contractual savings commitments, such as life insurance, mortgage principal, or superannuation.

V—PUBLIC FINANCE : 1942 INCOME TAX RATES : CANADA, U.K. AND U.S.A.

INCOME TAX AS PERCENTAGE OF INCOME
MARRIED PERSON WITH 2 CHILDREN

(1) Canada: Taxpayer is entitled to current return of refundable portion in respect of payments made in certain specified types of contractual savings commitments. See footnote (**) on page 57.

(2) United Kingdom: Taxpayer is not entitled to return of any part of refundable portion until after the war.

(3) United States: Includes state income tax (New York). Federal rates are those proposed by the House Ways and Means Committee and passed by the House of Representatives on July 20, 1942.

* Issues payable in Foreign Currency are included at the par of exchange up to Sept. 15, 1939, but thereafter conversion is made on the basis of the official rates of the Foreign Exchange Control Board. (1) Subject to revision. War Savings Certificates are included. Treasury Bills are excluded from I, II & III. For particulars of Dominion Treasury Bills see Heading IV. Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. However, the net reduction of total municipal bonded debt less sinking funds has been (in millions of dollars) approximately 25, 30, 37, 27, and 43, respectively in the years 1937 to 1941. For footnotes relating to more detailed matters see Statistical Summary for January, page 10.

(1) Including School Corporations. (2) Provincial grants and subsidies have been excluded from Revenue and corresponding amounts deducted from Expenditure where necessary. The classification of Revenue (other than taxation) and Expenditure involved a considerable amount of estimation so that classified totals are best approximate. The 1939 figures in the 1941 Statistical Summary (Aug. p. 78) have been slightly revised. (3) (4) See notes 3 and 4 on facing page. Amounts represent Tax Levies and not Tax Collections. (5) Grants in aid of Income Tax to be received under Dom.-Prov. Tax Agreements, are included "Other Revenue". (6) Excluding any surpluses from previous years. (7) Including Direct Relief Expenditures even if funded.

(1) Including School Corporations. (2) Including principal past due and unpaid. Basis used in Aug.-Sept. 1941 Summary (p. 79) slightly revised, mainly by including additional guaranteed debt, but the table is still in effect a continuation of tables in Section III, Book 111 of the Report of the Royal Commission on Dominion-Provincial Relations. Sources: Reports of Provincial Departments of Municipal Affairs and of Education; records of the Dominion Bureau of Statistics and Citizens Research Institute of Canada. (3) In the case of certain Municipalities the fiscal year nearest the calendar year was used. (4) Estimates based on sample Municipal returns received by the Dominion Bureau of Statistics. (5) Revised total. 1938 Revised Total 1265.4.

War Savings Certificates and Stamps (Net)	—	17	68	72
Other Issues Sold to the Public in Canada for New Money ⁽⁵⁾	50	203	1,034	845
Maturing Bonds ⁽⁶⁾	-3	-68	-106	-37
Special Issues Sold to Banks for New Money ^{(5) (7)}	20	450 ⁽⁸⁾	250	193 ⁽⁹⁾
Treasury Bills (Net) ⁽⁷⁾	—	75 ⁽⁸⁾	—	40
Deposit Certificates (Net) ⁽⁷⁾	—	—	—	305
Sterling Temporarily Placed with Bank of Canada by F.E.C.B. ⁽³⁾ (A)	—	—	40	-40
Other Self-Financing by Foreign Exchange Control Board ⁽³⁾ (B)	—	-306	170	-33
Balancing Item (mainly increase or decrease in cash) ⁽¹⁾	12	-12	-367	493
TOTAL (as above)	560	989	2,208	3,622

(1) The table does not show separately certain small disbursements such as sundry loans and investments, and certain offsetting items such as receipts of annuities and superannuation funds, and increases in the volume of cheques outstanding. These, together with changes in the cash balance, make up the "Balancing Item."

(2) Includes National Defence Advance Accounts, and disbursements under War Appropriation Acts which are charged to Active Assets.

(3) Apart from advances by the government to F.E.C.B., which do not affect this consolidated table, the main sources of funds for the accumulation of sterling have been (a) temporary borrowing from Bank of Canada, i.e. sale of sterling by F.E.C.B. to the Bank under agreement to repurchase (see item A), and (b) the original Canadian dollar resources of the Board plus Canadian dollars acquired by the Board through net sales of gold or U.S. dollar exchange (see item B). The large negative figure for "Other Self-Financing" in the first year of war arises out of purchases of gold and exchange by F.E.C.B. under the Foreign Exchange Acquisition Order and the Exchange Fund Order of April 30, 1940, which were financed by the \$325 mm. issue referred to in note (8) below.

(4) Including amortization of discount and commission but excluding contributions to sinking fund.

(5) Excluding conversion issues.

(6) Including maturing issues held by banks, and small amounts payable in foreign currency.

(7) Bank portfolios of Dominion and provincial securities have increased as follows during the years in question:—

Chartered Banks — 42, 118, 146, 448
Bank of Canada — 11, 388, 110, 209

See table on opposite page and also notes (8) and (9) below.

(8) Includes \$250 mm. of short term notes and \$75 mm. of Treasury Bills issued to the Bank of Canada to provide the Foreign Exchange Control Board with the means of buying gold and exchange under the Foreign Exchange Acquisition Order and the Exchange Fund Order of April 30, 1940.

(9) Sold to the Bank of Canada in connection with the \$700 mm. loan to the United Kingdom Government.

VI—BANK OF CANADA AND CHARTERED BANKS: CONSOLIDATED ITEMS

* These figures are compiled from published sources of varying accuracy and merely represent the best estimates available at this time. See also note (2).
 (1) Includes unpaid family workers. (2) Available information regarding the female farm labour force is so contradictory that no reliable estimate as to its size or change over the period is possible. The figures given in these estimates are therefore almost completely arbitrary, and are given merely to indicate a trend. (3) Figures for March 1940, are not available. Wage-earners in war industry at that date are therefore included under civilian industry.

(1) Includes school corporations. (2) Revenues and expenditures of public utilities such as post office, railways, telephones, waterworks, power systems, etc., are excluded but their surpluses or deficits are included where these have been taken into the governmental accounts. Sales of commodities and services in such institutions as hospitals have been excluded from revenue and deducted from the corresponding items of expenditure. Interest revenue from investments has been similarly treated. (3) The financial statements of Canadian governments, upon which the table is based, are not prepared on a uniform basis. Some use a cash basis, some, particularly municipalities, an accrual basis, and some report revenue on a cash basis and expenditure on an accrual basis. (4) Revenue collected through another government acting as agent is treated as "Collected from the Public". (5) Excludes provincial revenue from mining corporations, in conformity with the Federal-Provincial tax agreements. Such revenue is included in "Public Domain."

(6) Municipal taxes on corporations are not separable. (7) Includes 70.0 refundable after war. (8) Includes 25.0 refundable after war. (9) Includes 95.0 refundable after war. (10) Amounts are "net" i.e. where a government both "receives" and "pays" only the net result is shown. (11) The discrepancies between receipts and payments are due to differences in fiscal periods. (12) Includes an estimated amount to be transferred under gasoline tax guarantee. (13) The rate of expenditure during the year to date indicates that the Budget estimate of war requirements will be substantially exceeded. (14) Includes 17.0 for administration of and contribution to Unemployment Insurance. (15) Excludes municipal expenditure on relief works and provincial expenditure on provincial relief works. (16) Provision for reserve to meet deficits resulting from the operation of the Canadian Wheat Board (1938), and wheat acreage reduction payments (1942). (17) After deducting interest revenue from investments, except interest on sinking and debt retirement funds which has been credited direct to such funds.

TOTAL OF 484 COMPANIES	484	247.5	322.4	264.1	321.4	330.2	372.9

* Compiled by Bank of Canada. The table includes all companies with assets of more than \$500,000 whose reports were available over the period in question either in published form or on file with the Companies Branch of the Department of the Secretary of State, with the exception of 4 small companies which could not be satisfactorily classified. For the 484 companies, net income to stockholders in 1941 appears to represent about two-thirds of the total for all companies in that year. The table is, of course, subject to all the limitations and qualifications which apply to the basic accounting statements.

(1) For purposes of comparability any special capital charges made against income account in company reports have been added back, as well as special inventory reserve provision amounting to 2.0, 6.8 and 11.4 in the years 1939, 1940 and 1941 respectively.

(2) Includes current bond interest earned but not paid in cash of 2.2, 2.4, .6, 1.7, 2.4, and 2.3 in the years 1936 to 1941 respectively.

(3) Stockholders' investment is calculated as follows: book value of all stock outstanding, plus book value of capital and earned surplus, plus surplus reserves, e.g. "contingent" or "general" reserves, plus net non-interest bearing amounts owing to parent company, minus intangible assets such as goodwill, patents, franchises, leases, etc.

(4) The rates shown do not, of course, give any indication of the rate of return to an individual stockholder, which depends on the price at which he bought the stock. Stockholders investment (mid-year) is calculated as the average of preceding and succeeding fiscal year-end figures.

CENTRAL ELECTRIC STATIONS : INSTALLED CAPACITY* AND OUTPUT : 1928 - 42

* The chart is scaled on the assumption that the potential output of one horse power of installed capacity is 4,000 kilowatt hours. This was the approximate effective rate before the war but has since been appreciably raised by measures to increase utilization of available capacity, e.g., by connecting formerly independent power distribution systems, by daylight-saving, staggering hours of work, and other measures designed to spread
